SURE FLOW MX CLEANER

APPLICATION

ANTI-FOULANT: Mineral deposits in water distribution systems may often lead to restricted flow and clogging of sand filters. The use of strong mineral acid washes to remove deposits has resulted in waste management and disposal problems.

SURE FLOW MX is specifically formulated for use as a preventive cleaner that is fed at low residual on a continuous basis, minimizing the formation of deposits.

CLEANER: When mineral deposits are present on hard surfaces, **SURE FLOW MX** can be used at stronger concentrations as a chelated acid cleaner. When used as a cleaner, the product should be diluted to a 5 - 10% solution in water and allowed a contact time of about 5 minutes before rinsing.

SAFETY & HANDLING PROCEDURE

This product is a highly acidic liquid. Chemical splash goggles and impervious gloves should be worn during all handling of the concentrate. Protective clothing and gloves should be worn during use of concentrated product to minimize skin and eye contact. Refer to the Safety Data Sheet for further safety and handling procedure.

FEEDING TECHNIQUE

Inject directly into the water distribution system using CH₂O automated metering equipment. Never mix this product with other products without the use of properly tested metering equipment.

CONTROL

Daily testing is recommended to maintain proper control. Failure to monitor and maintain treatment levels can cause damage. Contact your CH₂O representative for further information on analytical testing. In addition to monitoring and maintaining treatment levels, it is the customer's responsibility to ensure the product is fit for its intended application. Additional testing may be performed upon request.

DOSAGE

Use only with CH₂O operating equipment. A control test is necessary for individual applications to determine tolerance. Customers shall set treatment levels based on their control test results.

PHYSICAL PROPERTIES

pH Less than 2.0
Pounds per Gallon 9.7-10.2
Physical Appearance Clear Liquid
Odor Mild

Seller Warranty

CH₂O brand test reagent refills are available through your sales representative at no charge. Customers are required to confirm product compatibility via a control test for their specific application. CH₂O recommends that you perform regular/daily testing to control chemical levels and cycles of concentration within established limits. Additional tests may be performed at your request. Test reports reflect conditions at the point when the analysis was performed. Results will change over time and with varying operating conditions.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the product data sheet. Buyer is responsible to ensure that products and product dosages are appropriate for Buyer's particular application. Seller makes no other warranty or representation of any kind, express or implied, concerning the product, including NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OF THE GOODS FOR ANY OTHER PARTICULAR PURPOSE. No such warranties shall be implied by law and no agent of seller is authorized to alter this warranty in any way except in writing with a specific reference to this warranty. The exclusive remedy against seller shall be a claim for damages not to exceed the purchase price of the product, without regard to whether such a claim is based upon breach of warranty or tort. Jurisdiction for any issues arising from or relating to this product shall be in the courts of the State of Washington and the venue shall be Thurston County. Any controversy or claim arising out of or relating to this contract, or breach thereof, shall be settled by arbitration in accordance with the rules and procedures as stated in RCW 7.06 and shall be binding upon both parties without right to appeal, and judgment upon the award rendered by the Arbitrator(s) may be entered in any court having jurisdiction thereof.

Applies to all products sold by CH₂O, Inc., and is hereby communicated to all of its customers as a condition of sale. Use of CH₂O products is subject to the Standard Terms and Conditions as listed on CH₂O, Inc.'s website at: www.ch2o.com.
