TRI-CIRC BLENDED ACIDS & WETTING AGENTS FOR REMOVAL OF MINERAL DEPOSITS FROM FRUIT & VEGETABLES

CONCENTRATED

TRI-CIRC's heavy-duty formulation allows for low-cost cleaning with optimum performance.

CONVENIENT

Because TRI-CIRC is a liquid cleaner, it can be dispensed accurately and efficiently through automatic feed and control systems.

LOW FOAMER

TRI-CIRC provides low-foaming surfactants to aid in the removal of field soils and "orchard bloom."

FREE RINSING

Selected chelants and wetting agents in TRI-CIRC provide excellent rinsing ability and inhibit the formation of calcium carbonate (CaCO₃) precipitate in the rinse cycle.

TYPICAL APPLICATIONS

TRI-CIRC is recommended for use on fruit that has been stained by hard water filming from overhead sprinkling systems that cause "orchard bloom." It can also be used to lower the pH in water systems, as may be required for a variety of purposes.

GENERAL REGULATORY STATEMENT

This product is formulated in accordance with various FDA guidelines relating to washing and/or waxing food for human consumption. Contact your CH₂O representative if more information is needed on specific regulatory compliances.

DIRECTIONS FOR USE

Mix TRI-CIRC in a solution with water until it reaches a pH of 1.5 to 3.0. It is recommended that an automatic feed system controlled by a pH sensor be used to meter the chemical into the water for exactness of concentration.

When used to lower system pH, add as necessary to obtain the proper pH level. Dose rate will vary depending upon the constituents present in the water.

SAFETY & HANDLING PROCEDURE

TRI-CIRC is an acidic product. It is harmful or fatal if swallowed. When handling, wear goggles or face shield and rubber gloves. In case of accidental ingestion do not induce vomiting. Seek professional assistance or contact a Poison Control Center immediately.

PHYSICAL PROPERTIES

Appearance.....Clear, Amber Liquid
Odor.....Mild
pH of Use Solution2.0-4.0
Pounds per Gallon9.2-9.7

Seller Warranty

CH₂O brand test reagent refills are available through your sales representative at no charge. Customers are required to confirm product compatibility via a control test for their specific application. CH₂O recommends that you perform regular/daily testing to control chemical levels and cycles of concentration within established limits. Additional tests may be performed at your request. Test reports reflect conditions at the point when the analysis was performed. Results will change over time and with varying operating conditions.

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the product data sheet. Buyer is responsible to ensure that products and product dosages are appropriate for Buyer's particular application. Seller makes no other warranty or representation of any kind, express or implied, concerning the product, including NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS OF THE GOODS FOR ANY OTHER PARTICULAR PURPOSE. No such warranties shall be implied by law and no agent of seller is authorized to alter this warranty in any way except in writing with a specific reference to this warranty. The exclusive remedy against seller shall be a claim for damages not to exceed the purchase price of the product, without regard to whether such a claim is based upon breach of warranty or tort. Jurisdiction for any issues arising from or relating to this product shall be in the courts of the State of Washington and the venue shall be Thurston County. Any controversy or claim arising out of or relating to this contract, or breach thereof, shall be settled by arbitration in accordance with the rules and procedures as stated in RCW 7.06 and shall be binding upon both parties without right to appeal, and judgment upon the award rendered by the Arbitrator(s) may be entered in any court having jurisdiction thereof.

Applies to all products sold by CH₂O, Inc., and is hereby communicated to all of its customers as a condition of sale. Use of CH₂O products is subject to the Standard Terms and Conditions as listed on CH₂O, Inc.'s website at: www.ch2o.com.
